PROJECT REPORT

ON

EVOLUTION OF HIGHWAY FAILURES AND THEIR MAINTENANCE

DIPLOMA IN DEPARTMENT OF CIVIL ENGINEERING

SEMESTER-6TH

SAMANTA CHANDRASEKHAR INSTITUTE OF TECH.& MGMT.

SEMILIGUDA,KORAPUT,ODISHA

2018-2022

CERTIFICATE

This is to certify that Nari Guntha, Pinki Chalan, Paresh Nag, Raj Khora, Manisa Takri, Sahembar Chalan, the students of Civil Engineering Department (2018-2022) batch of Samanta Chandrasekhar Institute of Technology And Management successfully completed The Project on the topic "DESIGN OF A RESIDENTIAL BUILDING".

They have shown keen interest and sincere approach in completing the project work and executed with appreciable teamwork within team members.

During the period of project execution, I personally found them sincere, efficient & hard working with good moral character. I wish them all the best for their future endeavors.

ACKNOWLEDGEMENT

It gives us an extraordinary feeling of pleasure to present the report of Diploma project undertaken amid DIPLOMA final year as partial fulfillment of the requirements for Diploma in Civil Engineering . We owe special obligation of gratitude to Er.Manisha Mishra, HOD (Civil) and Er. Madhuri Sagar, faculty of Civil department for their consistent backing and direction throughout our work. Their earnestness, exhaustiveness and persistence have been steady well spring of motivation for all of us. It is just their mindful endeavors that our attempts have seen light of the day.

We additionally don't want to miss the chance to acknowledge the commitment of all the faculties of the department for their kind aid and collaboration amid the advancement of our project. Last but not least, I would like to show my gratitude to my family and companions for their commitment in fruition of the task.

1. HEMANTA GUNTHA (F19030001006)

2. DEV KANTA (F19030001004)

3. BHUDEVI SEMARLIA (F19030001001)

4. KHARA TAUTAMA (F18030001009)

5. MAMITA SETHY (F19030001010)

CONTENTS

College Certificate	ii
Abstract	iii
Acknowledgement	iv
Table of Contents	01
List of Figures	03
1. Introduction	05
1.1. Types of Pavements	05
1.2. Design of Flexible Pavements	07
1.3. Traffic and Loading	07
1.3.1. Fixed traffic	08
1.3.2. Fixed vehicle	08
1.3.3. Variable traffic and vehicle	08
2. Material used	09
2.1. Cement	09
2.1.1. Properties of cement	09
2.1.2. Harmful constituents of cement	09
2.2. Aggregate	10
2.3. Sand	11
2.4. Bitumen	11
3. Construction methodology	14
3.1 Construction of bituminous roads	14
3.2 Types of bituminous construction	14
3.3 Methods of construction	15

3.3.1. Bituminous Construction procedures	15
3.3.2. Construction Procedure for Bituminous Concrete	16
3.4. Specifications of materials	16
4. Highway Pavement Failure	18
4.1. Introduction	18
4.2. Failures	19
4.3. Causes of Premature Failures	19
4.4. Common Flexible Pavement Failure/ Distresses.	20
4.5. Types of Distresses/Failures and Definitions.	20
5. Highway Maintenance	33
5.1. Definition / Objectives	33
5.2. Surface treatment of highways	38
5.3. Mowing	39
5.4. Drainage Systems	40
5.5. Traffic Control Devices	40
6. Conclusion	42
7. References	43

PROJECT PHASE-II EVALUATION
DIPLOMA

Project Topic: Evaluation of Highway Failures and their Maintenance

Name of the Students: Hemanta Guntha, Dev Kanta, Mamita Sethy, Bhudevi Semarlia, Khara Tautama

Sl.No	Performance Criteria	Division Of Marks Under Each Criteria	Marks Allotted
1	Selection of project assignment	10	9
2	Planning and execution of consideration	10	9
3	Quality of performance	10	9
4	Providing solution of the problems or production of final product	10	10
5	Sense of responsibility	10	10
6	Self expression, communication and presentation skills	15	14
7	Interpersonal skills/Human relation	10	9
8	Report writing skills	15	14
9	Viva voce	10	9
	Total Marks	100	93
